

AF-PQ S/C

DESCRIPTION

CONCRETE AND MORTAR FASTENER WITHOUT CHLORIDES.

CHARACTERISTICS

Inorganic salt solution which favours the beginning and the end of the forging process. The product does not contain chlorides.

SPECIFICATIONS

Aspect	Transparent liquid
Colour	Transparent to translucent
Density	1,2

APPLICATIONS

It is used to reduce the initial and final forging process time in any temperature range, especially in cold weather conditions.

INSTRUCTIONS

Add water to the mix in a dose which will hang on the effect required, on the cement type and on the temperature. Usually it is used in a dilution of 1 product part for each 5 water parts needed to the application.

RECOMMENDATIONS

It is advisable not to create big amounts of concrete because fast forging may force to throw away concrete.

STORAGE

Avoid freezing and temperatures higher than 35° C. In its original closed packages and under roofed premises, the product can be stored for a year.

PACKAGING

30 kg containers.

RISK & SAFETY PHRASES AND HAZARD SYMBOLS

R36	Irritating to eyes.
S36	Wear suitable protective clothing.
S24/25	Avoid contact with skin and eyes.
